600 INJURED, SIX VILLAGES DESTROYED ON PALOEWEH ISLE

katinda.

LONDON, Aug. 9.—One thousand persons were reported killed and 600 injured in a violent eruption of the volcano Rokatin-da on the island of Paloeweh, off the Malay peninsula, according to a Central News dispatch from Amsterdam this afternoon quoting reports received there from the Dutch East Indies.

Seaboard Submerged.
The eruption, according to the Central News message, was accompanied by a series of terrific earthquake shocks.

Six villages were said to have been destroyed.

A large section of the seaboard was submerged and nine trading vessels were sunk.

The quake threw up mighty waves which rolled shoreward leaving destruction in their wake.

Tidal Wave Increases Havoc.
The volcano had long been grumbling and smoking. The eruption developed with suddenness and violence. Huge clouds of ashes, masses of molten lava and a veritable hail of rocks shot from the crater. Volumes of smoke and steam rolled upward while flames flashed through the muck and loud rumblings came from the bowels of the mountain.

The earthquake shocks were believed to have rocked the bottom of the sea for they were followed by a tidal wave which rolled along the coast increasing the havoc.

The island is one of the group near the Dutch East Indian archipelago.

Hear Cheerful John Moody.
Observe Barney Deboka.
A Shark and George Kojac.
Mr. Swope's Lightning.

By ARTHUR BRISBANE

(The opinions expressed in this column are strictly those of Mr. Brisbane and not necessarily in consonance with the policies of The Review.)

JOHN MOODY studies and thinks, and predicts five more years, at least, of rising values and prosperity. "The old breeders of crises of 1893, 1903 and 1907 have disappeared."

We are living in a new kind of America, with a new kind of prosperity. "America's world of today is not the world of twenty years ago," says Mr. Moody.

If you were feeling gloomy, cheer up.
MANY are prosperous, NOT all. Barney Deboka, having vainly hunted a job, stood at a restaurant window, watching a woman turning butter cakes. He fell in a faint and doctors are treating him for starvation.

GREAT is the power of civilization, training a man so well that he stands watching food until he drops of hunger rather than steal. Man is a teachable animal.

GEORGE KOJAC, of New York, established a new world's record for swimming 100 meters backstroke. One more American winner not a "Nordic."
Kojac's time was 1 minute 9 4/5 seconds.

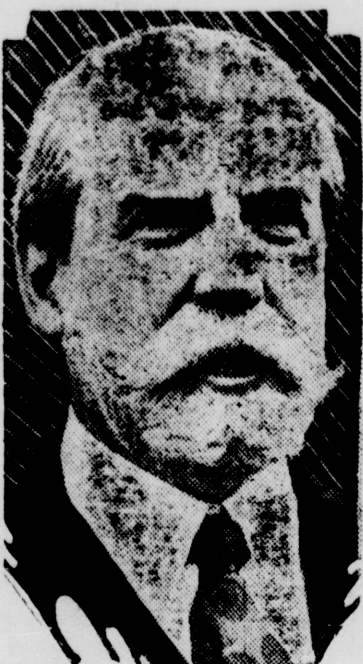

A SHARK swims two miles in one minute. While he was learning to swim so fast man was learning to think. Men catch sharks often. Sharks rarely catch men.

WITH automobiles men easily outrun the fastest land animals. Flying machines go faster than any bird. But on water, ideal speed element, 100 per cent ball-bearing, man has not been able to equal even comparatively slow fishes. A new idea is needed there.

WITH photography science does wonders, takes pictures of stars not seen through the telescopes and shows "outside universes" 1,000,000 light years from our galaxy.

FLORIDA STORM ISOLATES RICH CITRUS BELT

Tropical Disturbance
Sweeps Toward Gulf
of Mexico.

WIRES ARE DOWN

Damage on East Coast
Estimated at
\$5,000,000.

JACKSONVILLE, Fla., Aug. 9.—The tropical hurricane which lashed the east coast and south central portion of Florida is centered over the peninsula today and is moving northwest about 75 miles north of Tampa with decreasing intensity.

A. J. Mitchell, local forecaster, revealed there was little likelihood of the disturbance recurring, and he predicted that it will enter the Gulf of Mexico some time today.

Tampa and the west coast and the central section of the state was still cut off from communication today.

Central Section Suffers.

ATLANTA, Aug. 9.—South Central Florida and the West coast were isolated today as the tropical disturbance that struck West Palm Beach and the East coast Tuesday and Wednesday buried itself across the state toward the Gulf of Mexico.

Scores of towns in the rich citrus section were plunged in darkness last night when the 50-mile gale tore down power lines in an area of about 40 miles, from Winter Haven to Orlando.

Winter Haven, Kissimmee, Orlando, Lake Wales and many other little towns were in the path of the storm, and the same damage that was done at Jupiter, West Palm Beach, Fort Pierce and other cities on the East coast was done in the south central section and the West coast of the state.

Houses were unroofed, trees and shrubbery uprooted, windows broken, but the most damage was suffered (Continued On Page Eight, Col. Two)

SEEK PEDDLER IN MURDER OF DIVORCEE, 69, IN CLEVELAND

Mrs. Agnes Klosowski
Strangled With Hand-
le of Shopping Bag.

BOUND, GAGGED

Body, Clad in Night-
gown, Found by
Roomer.

CLEVELAND, Aug. 9.—A bottle peddler was sought by police today in connection with the shocking murder of Mrs. Agnes Klosowski, 69-year-old divorcee, reputed to have been wealthy, whose body, bound and gagged and clad only in a nightgown, was found in bed at her East Side home early this morning. The woman had been strangled.

Described as foreign-born and about 55 years old, the bottle peddler is believed to have been one of the last persons to see the woman alive. Detective Inspector Cornelius Cody told an International News Service reporter this morning.

Found by a roomer, Mrs. Stella Volk, when she returned home at 2:50 o'clock this morning, the body was stretched across the bed, a shopping bag hanging from the head, with the leather handle tightly twisted about the neck. Tape had been used to bind the woman's arms behind her back. Police believe the murder was committed between 10 last night and 2 this morning.

No money was found in the house, leading detectives to the belief that the murderer obtained some loot. Drawers from the tables and bureaus were thrown on the floors, clothes scattered about, and the house ransacked.

Though police say the bottle peddler may not have been involved in the murder, the theory was advanced that the woman was slain as the result of an argument over money matters, and that the man sought may be able to shed some light on the crime. The bottle peddler, Cody said, supplied the woman with bottles in which she kept home-made beverages.

25 INJURED WHEN BUS OVERTURNS

LAGRANGE, Ind., Aug. 9.—Twenty-five persons were recovering here today from injuries received when a speeding Greyhound bus bound for Cleveland from Chicago left the road and overturned in the ditch about six miles west of here. Ten others on the bus escaped unhurt.

The blinding glare from an approaching car at a sharp turn in the road caused the driver of the bus to swerve too far and the bus leaped over the bank into the ditch six feet below.

Passing motorists and citizens of LAGRANGE took the injured to a hospital for treatment. None is expected to die.

Fines and bonds totaling \$64 were collected by Municipal Judge J. C. Hanley today from four men, nabbed in a gambling raid at the Ormes barber shop, Pennsylvania avenue, East End, by Patrolman Chester Smith at 2 o'clock yesterday afternoon.

Hartford, Conn., Private
Reported Slain in
Action.

PUERTO CABEZAS, Nicaragua, Aug. 9.—One American marine was killed and three others seriously wounded in a sharp clash with native bandits on the banks of a little stream 60 miles from Bokay, Capt. E. G. Howard, of Oakland, Cal., a charge of the marine detachments here, revealed today.

A detachment of 48 marines commanded by Captain M. A. Johnson, of Burlington, Vermont, was attacked by a large force of bandits while encamped on the banks of the stream, according to Howard. Fierce fighting followed in which 10 bandits were killed.

Marines Outnumbered.
The marines were greatly outnumbered but quickly organized their forces and put the bandits to rout. News of the encounter came when planes brought the wounded marines here for medical attention.

Private Myer Stongle, of Hartford, Conn., was killed in action.

The wounded marines are Private Thomas Paine, of Roxbury, Mass., Private Tassel Schoenberger, of South Charleston, West Virginia, and Private Melvin Mosler, of Topeka, Kansas. All three are expected to recover.

Planes Pursue Bandits.
Captain Edison sent word that he is now following the bandits. Planes were sent here to assist him. It is believed the marauders were remnants of General Sandino's forces.

Major Harold Utley, commanding the marines in the eastern area of Nicaragua, is now at Bokay. Captain Howard is in charge here during his absence.

HOOVER BARS "MUDSLINGING" IN CAMPAIGN FOR PRESIDENCY

G. O. P. Nominee Will
Not Countenance any
Personalities.

NO "BALLYHOO"

Candidate Awaits Formal
Notification on
Saturday.

By William K. Hutchinson.

STANFORD UNIVERSITY, Cal., Aug. 9.—With his formal notification 48 hours away, Herbert Hoover today barred "mudslinging" from his campaign for the presidency.

The Republican nominee let it be known that he will not countenance any personalities in the campaign either against his Democratic rival, Governor Alfred E. Smith, or other prominent Democratic party leaders. He placed "mudslinging" under the same ban he recently put upon the "barnstorming" plans and "ballyhoo" programs, devised by his enthusiastic personal friends.

Revises Moses' Speech.

The candidate was looking forward today to the arrival of Senator George H. Moses, of New Hampshire, chairman of the notification committee. Senator Moses will deliver the notification address at the exercises here Saturday in Stanford stadium. A copy of Moses' speech was sent the nominee some time ago and he returned it to the senator with a number of suggestions, which materially changed its contents.

Moses will bring the revised speech with him. It was said the speech would be perfunctory in accordance with Mr. Hoover's wishes, and devoid of the "wisecracks" which illumined the senator's address as permanent chairman at the Kansas City convention.

Arrangements have been completed to handle a crowd of from 100,000 to 150,000, although the local managers expect no such attendance. An impressive program of ceremonies will precede the actual notification. There will be a drill by the Pasadena American Legion drill corps, which won second prize at the Paris convention; a musical program by massed bands; aviation stunts above the stadium and (Continued on Page 8, Column 1)

STRUCK BY AUTO IN CANDY QUEST

COLUMBUS, O., Aug. 9.—Childish desire for candy today was responsible for Mary Alice Meghey, 6, being in a hospital here with a possible fracture of the skull and other injuries which may prove fatal.

According to her sister, Helen, 8, Mary started to rush across the street near their home to spend a nickel at the corner grocery for candy, and misjudged the speed of an oncoming taxicab.

The driver, Curtis Patrick, swerved and crashed in to a pile of coal in the street trying to avoid the accident. He was not hurt.

Knocked Under Train.
His left leg was amputated at the hip and he was internally injured.

He was knocked beneath the wheels of the locomotive, the train passing over his left leg. He was carried to the Patterson company's plant and removed to the hospital in the Sturgis ambulances. Dr. W. A. Hobbs attended him.

Lived Here 40 Years.
Schneider, who was born in Washington county, O., had lived in East Liverpool for 40 years. He was a member of St. Ann's Catholic church. Parliament Asked To Suppress Noise At Behest of Doctors

LONDON.—"The torture of noise" is the outstanding question of debate in England at the present moment. A call to Parliament to suppress

unnecessary noise, specially at night, will be one of the questions before the assembly of British doctors about to assemble in session at Cardiff.

Doctors who work in large cities are especially concerned about this problem. They say that noise in London is adding to the mortality figures and impairing the working efficiency of hundreds of thousands of people.

It is torturing patients in public and private hospitals, and so serious are the general effects that Professor Henry J. Spooner estimates the loss due to impairment of working capacity at \$5,000,000 daily in London alone.

He explains that the strident and deafening noise shocks the auditory nerves and produces fatigue, which in turn diminishes the capacity for work to a greater extent than severe muscular exertion.

British doctors, as a whole, believe London to be the noisiest city in the world.

In Austria 124,000 are receiving unemployment aid from the government.

SMITH AWAITS ANSWER TO HIS DEBATE DEF

Governor Ready to Meet Dr. John Roach Straton.
SALOON QUESTION
Nominee Insists That Calvary Church be Place.

By Raymond I. Ernst.
ALBANY, N. Y., Aug. 9.—Governor Al Smith today was awaiting with keen interest a formal reply from the Rev. John Roach Straton, pastor of Calvary Baptist church, New York, whom he challenged to debate after the clergyman had characterized him as the deadliest foe in America to moral progress.

Dr. Straton's suggestion that the debate take place in Madison Square Garden and that later they campaign through the south, debating Smith's political career, will be flatly rejected by the governor, according to his advisers. The executive will insist that Dr. Straton permit him to defend his stand on moral issues from the pulpit of Calvary church where the attack originated.

Will Reply to White.
In the event that Dr. Straton refuses to open his church to the governor the latter plans to issue a formal statement within the next few days in which he will reply not only to the New York minister but also to William Allen White, Kansas editor. White recently assailed the governor, insisting that his record when a member of the state assembly showed he always voted to protect the saloon and the liquor traffic.

In his letter to Dr. Straton the governor suggested that they meet in debate any time during the week of September 2. It was learned today, however, that Smith is so anxious to answer the charge that he is a foe to moral progress that he will accept any date suggested by the New York clergyman, provided it is after August 22, the date of his official notification.

Plans Radio Hookup.
If the meeting is arranged in Dr. Straton's church there is only one other request the governor will make—that the debate be broadcast through a network of radio stations. The governor desires the radio hookup so he can tell the voters of the country just where he stands on all the moral issues of the day.

In the meantime the governor is

FOUR STEEL CITY MILL WORKERS FACE DEPORTATION HEARINGS TODAY

Men, Charged With Having Fraudulently Gained Admission to Country, Arrested in Midland.

MIDLAND, Pa., Aug. 9.—Charged with having fraudulently gained entrance to this country, four Midland mill workers, two Slavs and two Portuguese, today face deportation hearings in Pittsburgh.

They are Milo Bucan and Peter Suznjvic, both Slavs, and Jose Carreira and Custeria Fernandes, Portuguese. They were arrested yesterday and later taken to Allegheny county jail, Pittsburgh, by Irwin A. Lex, federal immigration inspector.

Seven were arrested, but Lex released three after examination at police headquarters. Bucan, who has been in this country several years, is married. He and Suznjvic arranged to obtain release at Pittsburgh today by posting bonds of \$1,000 and \$500.

Antonio Cardoza is now awaiting deportation under \$1,000 bond. Cardoza was arrested several months ago by a federal officer.

The two Portuguese are alleged to have deserted ships. Bucan, Lex is charged, has gained admission to this country by use of a fraudulent passport. Suznjvic was smuggled across the Canadian border, according to Lex.

Drewes, Champ, and Stofen, Chief Foe, in Quarter Final.

CLEVELAND, Aug. 9.—With most of the big guns still booming, the National Public Parks tennis tournament went into the quarter finals round at Rockefeller park today. Heavy fighting, on both the doubles and singles fronts, is in prospect this afternoon.

Do you enjoy your food?

If you do not enjoy your food it is a true sign that you are losing your appetite. And when your appetite is "gone" it means you haven't the resistance to ward off disease. Loss of appetite is only a symptom. General weakness pervades the entire body. There is no desire to work or play.

Rich, red, blood builds and sustains

Your physician will tell you that lowered vitality is the result of insufficient supply of red blood cells—those vitalizing elements in the blood that nourish and sustain the body.

When you get your red blood cells back to normal, that sluggish, let-down feeling, loss of appetite, rheumatism, boils, pimples, and skin troubles disappear. You get hungry again; sleep soundly; solid flesh takes the place of that which was once flabby. You feel strong; and your nerves become steady.

DU PONT WILL RESIGN POST

General Motors Chief to Support Smith, is Report.

NEW YORK, Aug. 9.—Reports that Pierre S. DuPont, chairman of the board of both the General Motors corporation and the gigantic E. I. DuPont de Nemours company, would actively support the presidential candidacy of Governor Alfred E. Smith were current in financial circles and at Democratic national headquarters today as the directors of General Motors assembled for their regular quarterly meeting.

DuPont, one of the wealthiest men in the United States, announced he would have an important statement to make at the conclusion of the board's session.

Reports in the financial district were that he would temporarily relinquish his place on the General Motors directorate in order to be free to devote himself to the Smith campaign.

The board is expected also to act upon the resignation of John J. Raskob as chairman of the finance committee, submitted two weeks ago when he began actual service as chairman of the Democratic national committee.

DuPont heretofore always has been identified with Republican politics, but has never held office. His cousin, Coleman DuPont, one time president of the great powder company, is now Republican senator from the DuPont's native Delaware. In 1924, he was a member of the arrangements committee for the Cleveland Republican convention.

Pierre DuPont has long been an intimate friend of Raskob. It was he who discovered Raskob and guided him in his struggle to the finance chairmanship of one of America's greatest corporations.

Nominee 54 on Friday.

Hoover has made it clear to his associates and advisers that he will deal in no personalities in his speeches. It is his wish that the Republican party make an affirmative campaign, singing its own praises and explaining its administrative and legislative records. He believes that the campaign can be won on the record of the Republican party plus the platform adopted at Kansas City. He will let the opposition attack and criticize. The nominee was ready for the notification today. He has memorized most of his 7,100 word speech of acceptance.

The nominee will be 54 years old Friday.

DENY CONDEMNED MAN'S CHARGES

TOLEDO, O., Aug. 9.—Charges that his wife and mother were refused permission to visit him in the county jail here, made by Charles (Stanley) Hoppe, 26, condemned slayer of Dorothy Sienkowski, 7, were held as groundless here today by Common Pleas Judge Charles M. Milroy, James Austin Jr. and Roy R. Stuart, who investigated the charge.

It developed that Hoppe's chief complaint, when taken before the judges, was that the jailer stood too near his cell to permit any private conversation. He also is said to have admitted that his wife and mother did visit him last Saturday.

Hoppe is under sentence to die in the electric chair at Columbus October 26. He is being held in the county jail here pending hearing of a new trial motion, before the court of appeals.

Storm Sweeps Florida

by fruit growers and public utilities, such as railroads and power and wire companies.

No Loss of Life Reported.

JACKSONVILLE, Fla., Aug. 9.—Centering over the rich citrus belt in the south central part of the state after causing damage on the East coast estimated at \$5,000,000, the hurricane which has been ravaging Florida for the past two days rapidly neared Tampa and the Gulf coast towns early today.

Rising winds of from 40 to 70 miles per hour were reported from towns 50 miles east of Tampa. In that city city warnings were issued and shipping was held to the harbor.

No loss of life had been reported from the storm center early today, but nearly all wire communication was down. It was feared, however, that the rich citrus orchards in the path of the tropical storm would be ruined.

Second Storm on Way.

Meanwhile towns of the lower east coast as far south as Palm Beach, engaged in removing the debris left in the wake of the hurricane, were warned by the weather bureau that another storm was sweeping in from the sea. This new disturbance was believed to be centering about 100 miles southwest of Porto Rico early this morning, and moving northwest or west northwest.

Indications were that the second storm would exceed its predecessor in intensity, the weather bureau reported. Last night, however, it was of but moderate intensity.

The total damage done by the tropical storm that lashed the Florida east coast for a stretch of 125 miles between Palm Beach and Titusville may exceed \$5,000,000. It was conservatively estimated here.

Utility Companies Hard Hit.

The greatest damage was suffered by the public utilities companies, when miles of wires were torn down by the gale, leaving this territory without power and wire service for many hours. Telephone communication had been partially restored today.

Crops and young fruit trees suffered also, and scores of houses of light frame construction were unroofed in Fort Pierce, Vero Beach, Stuart, Melbourne and towns in that vicinity. Canal Point, Ponce de Leon and places on Lake Okechobee shore escaped with comparatively light damage.

No casualties were reported.

or three weeks in connection with this contest.

The Ohio Anti-saloon league has figured conspicuously in the efforts which are being made by Congressmen James T. Begg, Sandusky; Myers Y. Cooper, Cincinnati; and Attorney General Edward C. Turner, Columbus, to win the G. O. P. gubernatorial nomination.

Turner has been steadfast in his attack upon officials of the league and in his endeavor to put an end to what he termed an improper alliance between league members and utility lobbyists and their alleged influence upon the state legislature.

"Sample" Ballot Controversy.

Numerous members of the Ohio Anti-Saloon league, as friends of Congressman Begg, took vigorous exception to the recent issuance of the league of copies of a "sample" ballot which endorsed Cooper's candidacy. These protestants claimed that due to his record in congress as a dry, Begg was entitled to the league's endorsement on a parity with that accorded Cooper.

Superintendent Moore replied that the endorsement of Cooper was in accord with an agreement, to which Begg was a party, made months ago.

Moore early today had not replied to a letter sent him by Lester D. Hill, Bowling Green, Wood county dry leader, adversely criticizing the league's endorsement of Cooper. Neither had Moore answered an open letter from the Rev. P. B. Cuppett, Delaware, asking that the league immediately rescind its endorsement of the candidacy of Congressman Martin L. Davey, Kent, for the Democratic nomination for governor. Declaring that Governor Al Smith, of New York, Democratic candidate for president, was being supported by Davey, the Rev. Mr. Cuppett charged that Davey obtained the league's endorsement "under false pretenses."

"It is evident you have many policies, but not any principle," Hill wrote Moore. "You endorse two dry candidates for the short term for U. S. senator (Marshall and Dick) when you called Burton wet on the other side." Moore was requested by Hill to explain.

Romance Isn't Dead—Quite

Maybe George D. Noebeling, Greenwich Village habitue and scion of wealthy Philadelphia family, is a throwback to the age of chivalry—or something. At any rate he fought a duel for his "lady fair" and then tried to take his life because he couldn't get a job as an actor. The lady in question, Billy Netcong, is pictured consoling him in Knickerbocker Hospital, whether he was taken after leaping 75 feet to the hard pavement in Morningside Park. He's going to recover, marry Bill and live happily ever after.

GENE TUNNEY WEDS IN FALL

Miss Mary Lauder's Mother Confirms Engagement.

NEW YORK, Aug. 9.—Gene Tunney, retired heavyweight pugilistic champion of the world, and Miss Mary Josephine Rowland Lauder of Greenwich, Conn., are to be married in the late autumn or winter.

This information was contained in a formal statement issued at South Bristol, Me., by Mrs. George Lauder of Greenwich, Conn., and New York, confirming reports circulated in the last few days of the engagement of Tunney and Miss Lauder.

Miss Lauder is a daughter of George Lauder, Jr., a nephew of Andrew Carnegie, and her family long has been in leading circles of society. Lauder inherited millions from his father, who was an associate of Carnegie's in the steel industry and greatly increased that fortune before his death. He was a prominent yachtsman. Tunney himself is believed to have saved nearly \$2,000,000 from his ring activities.

Miss Lauder's mother was Katherine M. Rowland before her marriage. Miss Lauder is 21 years old and is a graduate of the Finch School for Girls in New York and of the Lenox school of New York. Tunney is 30.

Just when Tunney and Miss Lauder first met has not been disclosed but it is known that for more than a year he has been making frequent trips to Greenwich, where he has a marine corps buddy in the person of Samuel Pryor, Jr. It is believed Tunney met Miss Lauder through Pryor.

Three Men Charged With Coast Rum Running Freed

HOBOKEN, N. J. — Although it is against the law to engage in the liquor traffic between the three-mile and 12-mile limits off the coast of the United States, there is no penalty for the offense, according to a ruling by United States Commissioner Stanton.

Stanton's decision resulted in his freeing three men who had been charged with a suspicion of smuggling liquor. The men were arrested outside of the three-mile limit, and Stanton said that although the 12-mile had been established by agreement no provision had been made in the agreement for punishment of those arrested between it and the three-mile limit.

LONDON STREETS "PAVED WITH GOLD" FOR BEGGARS WITH STAGE ABILITY

LONDON.—For the beggar with sufficient theatrical ability to exploit his trade thoroughly, London's pavements are paved with gold. Periodically cases are heard in court which reveal that the needy, begrimed, individuals who stand on the curb imploring passersby to purchase a box of matches for a penny, are often persons of comfortable means.

One case that attracted wide attention was that of Ernest d'Enton, describing himself as an ex-serviceman, who at his arraignment was charged with driving daily from Portsmouth to his place in London in a high-priced automobile.

D'Enton, shabbily dressed and presenting a woeful appearance, was in the habit of stationing himself before a department store or other busy place, displaying a few boxes of matches in a battered suitcase. He carried a card on which was written: "My last hopes—wife and five children. Proofs given."

LIGHTS of NEW YORK

Story by Hugh Herbert and Murray Roth...

SYNOPSIS: Eddie Morgan and his friend, Gene, tired of life in a little upper New York State town, buy a barber shop in New York. They discover in a short time that it is a blind for a speakeasy. Eddie's girl, Kitty, is working in a night club. The owner, Hawk, is friendly with Eddie, but annoys Kitty with his attentions. Molly,

Hawk's girl, is jealous of Kitty. A policeman is mysteriously murdered. The only clue is a case of Old Century whiskey, sold by very few speakeasies and clubs in New York. Kitty complains to Eddie about Hawk, and Eddie gives her a small revolver, telling her to fire it into the air if she becomes afraid of Hawk.

Courtesy N. Y. Daily Mirror

EDDIE, Kitty and Hawk, seated at a table in Hawk's night club, discuss business. Eddie tells Hawk that the barber shop isn't paying and Hawk offers to help Eddie finance it. Eddie says he wants to get out as soon as possible. "I'd much rather be back home," he says. Hawk laughs at him. "What in the world would we fellows do without places like yours?" answers Hawk. "We need you."

ONLY a few minutes after his gesture of friendliness, Hawk, seeing Kitty on the way to her dressing room, stops her. "Come into the office," he says, familiarly taking her arm. "I'm in a hurry," she replies. "Trying to high-hat me?" he asks, growing angry. "And after what I've done for you? Where would you be now if I hadn't given you a job? I can do more for you, too."

HAWK employs two gangsters to help him get the liquor to and from his establishment. The detectives assigned to find the murderer of the policeman have been trailing the pair and, worried about the detectives' activities, the men go to talk over the situation with Hawk. Before they converse, Hawk opens the aperture in his office door to make sure they will not be overheard.

"**THE** detectives are on our trail," says one of the men. "We're going to leave town while the leavin's good." "Don't do it," advises Hawk. "It's bad policy." "But they're lookin' for Old Century whiskey and are you goin' to keep the cases you have around here?" they ask. "You take it away now," says Hawk. "Not by a darn sight," they reply.

SKELETON NEAR PERFECT STATE OF PRESERVATION AFTER 91 YEARS

ATTICA, Ind., Aug. 9.—The skeleton of Robert S. Truitt, 42, of Coshocton, Ohio, who died here on May 17, 1837, was found to be in almost perfect state of preservation, after being buried 91 years when two of Truitt's grandchildren, now living in Hancock county, had the body exhumed.

The body was taken to Crownland cemetery near Greenfield for reinterment in the Truitt lot there.

The grandchildren who ordered the removal of the body from its resting place of nearly a century were Toland S. Truitt and Ella M. Truitt. Roland S. Truitt was born Jan. 17, 1795, near Coshocton, Ohio, and married Julia Robinson in Indianapolis, Ind., about 1820. To this union came four sons, Mortimer, Arza, Willard and Solomon R., the latter the father of the two Hancock county Truitts.

This is McKinley's first entrance in politics.

McKinley was born at Toronto, Jefferson county, March 5, 1902. He is a son of Mrs. George Purinton, formerly of 415 Elm street, East Liverpool, now living in St. Petersburg, Fla. Upon completion of his grammar school education in Toronto, his family moved to East Liverpool where young McKinley graduated from the high school in 1920. While in high

school he earned the nickname of "Senator."

McKinley, who was better known as Ernest McKinley when he lived here, was a substitute carrier at the local postoffice, working under the late Postmasters M. E. Miskall and J. E. McClure.

He matriculated at Ohio State university, Columbus, following his graduation from high school. He graduated from the college of arts in 1924. He was admitted to the practice of law in Ohio in August, 1925. After completing his studies at the state university McKinley took a post-graduate course in law at Columbia university, New York city. His offices are in the Huntington National bank building, Columbus.

While in college he specialized in European and American history, political science, debating, parliamentary procedure and incidental subjects.

McKinley is a Presbyterian and a member of Chase Senate of the Delta Theta Phi, a fraternity of lawyers.

GENERAL TIRES REPORTS PROFIT

Despite a considerable inventory loss resulting from recent collapse of the crude rubber market, and which affected all large rubber companies, the General Tire and Rubber company announced today it had absorbed its "unearned" loss during the first six months of the year and at the same time made a profit of 2 per cent.

The general profit for the first six months of the year is low, however, and out of line with all previous showings of the company, as well as with normal profits which the company ordinarily should have enjoyed as a result of healthy sales increases shown during the period, it was pointed out by officials.

The fact, however, that the General company showed an actual profit was regarded in Akron rubber circles as unusual in view of the fact that the company, in wiping out its inventory loss in a short six months period, departed from the practice of large factories which usually spread such uncontrolled losses over a period of from 12 to 18 months.

A Christmas card mailed at Sedburgh, England, on December 24, 1901, has just been delivered to Mrs. J. A. Lew, who lives only a few miles away.

Philadelphian Unopposed for Grand Worthy President.

COLUMBUS, O., Aug. 9.—Edward J. Ryan, Philadelphian, was unopposed for election today as grand worthy president of the Grand Aerie, Fraternal Order of Eagles, holding their national convention here.

Other nominees for grand aerie officers who were unopposed were: C. J. Chenu, Sacramento, Cal., grand worthy vice president; R. P. Schmidt, Milwaukee, grand chaplain; John Parry, San Francisco, grand secretary; Joseph Dowling, Dayton, grand treasurer.

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 for 25¢ today at the nearest Rexall Drug Store.

Piles Go Quick

Without Slices or Cutting.

Thousands who have piles have not learned that quick permanent relief can only be accomplished with internal medicine. Neither cutting nor any amount of treatment with ointments and suppositories will remove the cause.

Bad circulation causes piles. There is a complete stagnation of blood in the lower bowel and a weakening of the parts. Dr. J. S. Leonhardt found the remedy and called his prescription HEM-ROID. He tried it in 1000 cases with the marvelous record of success in 96 per cent and now it is sold by druggists everywhere under a rigid money-back guarantee.

Don't waste any more time with outside applications. Get a package of HEM-ROID from Mathews Original Cut Rate today. It has given safe and lasting relief to thousands and will do the same for you, or costs you nothing.

One Thin Woman Gained 20 Pounds In Three Months

The chief cause of underweight, lowered vitality and strength is improper assimilation of your food. Your food doesn't get into the blood and give you the necessary nourishment. First correct this condition—then lovely shaped and developed legs, a body of superb curves and enchanting roundness, perfect health with an abundance of vitality will soon be yours.

McCoy's Tablets are highly recommended by science to put on pounds of firm, healthy flesh—to create energy and vigor in a surprisingly short time.

Miss Catherine Friel of Florida, writes: "I started taking McCoy's Tablets 3 months ago when I only weighed 108 pounds—Now I weigh 128—my chest was so hollow and is filled out now."

McCoy takes all the risk—Read this iron-clad guarantee. If after taking 4 sixty cent boxes of McCoy's Tablets or 2 One Dollar boxes any thin, underweight man or woman doesn't gain at least 5 pounds and feel completely satisfied with the marked improvement in health—your druggist is authorized to return the purchase price.

The name McCoy's Cod Liver Oil Tablets has been shortened—just ask for McCoy's Tablets at any drug store in America.

Big Ulcer All Healed

"Now I Can Walk" Says Mrs. Southcott.

"Here is another letter that makes me proud," says Peterson. "One that I would rather have than a thousand dollars."

"It seems like a miracle, but it's true, every word of it. I know it because I get similar letters almost every day from people who have used Peterson's ointment for old sores, eczema and piles."

"It is a wonder I am proud?" Dear Sirs:

"I was an untold sufferer from an old running sore and ulcer. I had tried most everything without any relief from pain. A friend told me of your wonderful ointment and the first box took away the pain that had not left me before in years, and after using just nine dollars worth of salve I am cured. The ulcer was 9 inches by 6 1/2 inches, is all healed and I can walk. Never, never will I be without Peterson's again."

"You may use this to recommend your ointment if you wish. I cannot say enough to praise it." Yours truly, Mrs. Albert Southcott, Lyndonville, N. Y. Generous box 35 cents.

Too Much Lager Hurt Heeney's Chances in Championship Bout

Tom Overdoes Liquid Diet, Especially Just Before Fight, According to Managers.

By Davis J. Walsh.
NEW YORK, Aug. 9.—Everybody has accused Gene Tunney of having been just about 101 per cent fighter the night of the late unpleasantness in connection with the heavyweight championship match. Today, those associated in the management of Tom Heeney come forward with the estimate that the champion beat a six and seven-eighth challenger on the night in question. The answer, according to John Mortimer, and others of the Heeney menage, was—beer.

weighed more than 197 pounds for an important fight. The answer? Beer, says the Heeney management. It seems the original mistake came in the selection of a training camp that received the benefit of neither mountain nor sea breezes, thus causing the challenger to train hard in the midst of one of the hottest spells of the summer. But the supplementary mistake, it now is admitted, is found in the fact that Heeney was permitted too much latitude with his liquid diet, beer again. The second mistake resulted from the first, as a matter of fact. Then came the day of the big megaphone play, Sunday, four days before the fight. Rickard took everybody, including John Bananas and his Aunt Martha, down in his private yacht. Dempsey was the head cheer leader of the lot, the idea being to look at Heeney and automatically like his chances. It couldn't be done. Heeney never looked worse, even in the eleventh round of the fight itself. The challenger, they say, immediately jumped to the conclusion that he had gone stale. Further training of an intensive sort, if such a condition proved to be true, would only figure to aggravate matters. Beer drinking, on the other hand, is sometimes prescribed by trainers as a possible means of checking staleness. So perforce Heeney decreased the amount of his training but not the amount of his beer—at least not until several days before the fight. The result was Heeney's rapid gain in weight, the kind of weight he didn't want and wouldn't use. Mortimer commends the fighter for the course he took, declaring that Heeney was badly worried by the weight of the ballyhoo he had to shoulder and that relaxation was the only remedy. The chances are, however, that not even Mortimer will deny that a fighter who aimed at 198 pounds and hit 201 1/2 didn't quite achieve the acme of perfection for his big moment.

Phils Sweep Cub Series; Bucs Cop Seven Straight

Intersectional Conflict Costs Cincinnati Eight in Row; McGraw-McKechnie Forces to Clash in Seven More Games.

By Les Conklin.
NEW YORK, Aug. 9.—The national league pennant race took on an entirely new aspect today as the result of New York's two victories in three games with St. Louis, seven straight wins by Pittsburgh, Philadelphia's clean sweep in the four-game Chicago series and the eight straight defeats suffered by Cincinnati in the intersectional engagements just concluded. The newly-found strength of the Phillies and the Braves, who whipped the Reds twice yesterday

means that John McGraw's fighting Giants will have a'lie allies when they begin their final invasion of the west next week. St. Louis won nine games and lost six in the east, while the inspired New York team took thirteen out of seventeen and now trail the leaders by only 4 1/2 games. The Cards have won seven games and lost eight against the Giants, and have seven more contests with the New Yorkers on their schedule. The league leaders face the fast-stepping Pirates today and later on they must play eleven more contests with the Reds and Cubs, against whom they have won only sixteen games and lost seventeen during the season to date. In their last three games with St. Louis the Giants dented the plate 24 times, outscoring the Cards, 2 to 1. Yesterday the McGraw men got off to a ten-run lead. They kayeed Wee Willie Sherdel in the fourth inning when they scored six runs and won, 10 to 5. The Philly team which has wrecked the Cubs is composed entirely of young blood with the exception of Sand, and even he has been decorating the bench at times lately. Manager Shotton is seeking more long distance hitters like Don Hurst and has found one in Chuck Klein, rookie outfielder. Klein has walloped three homers in his first week. He got one yesterday which helped the Phils beat the Cubs, 4 to 3. The pitching of Bab Smith and Delaney and Sisler's hitting featured Boston's 12 to 1 and 6 to 3 victories over the Reds. In the nightcap Smith yielded only two hits, both singles and both made by Willie Pipp. Sisler collected six hits. Glenn Wright had a lucky day as Pittsburgh nosed out Brooklyn, 4 to 3, beating the Dodgers by one run for the third game in succession. Wright drove in two runs after Catcher Deberry dropped a foul from his bat. Later Outfielder Herman lost Wright's fly in the sun. It went for a triple and was converted into the winning run. No American league contests were scheduled yesterday. Lefty Heimach, New York's new pitcher, is scheduled to work against the Red Sox today when the Yanks play Boston.

WALLACE BEERY in Blindfold test of leading cigarettes . . . says no brand can "double" for OLD GOLD

“You have heard of some actors that can't be ‘doubled’ in the movies. Well, Old Gold is like that. No other brand can ‘double’ its fine flavor and smoothness—even in the dark. That's why I picked it in the blindfold test. And that's why—from now on —Old Gold and I are going to be ‘Partners in Crime.’”

Wallace Beery

How the test was made . . .

This test was conducted by the representative of a leading Eastern university and a disinterested witness selected by them. Mr. Beery was asked to smoke each of the four leading brands, while blindfolded, clearing his taste with coffee between smokes. Only one question was asked: “Which one do you like best?” He chose Old Gold.

Why you can pick them . . . Three types of leaves grow on the tobacco plant . . . coarse top-leaves, irritating to the throat . . . withered ground-leaves, without taste or aroma . . . and the heart-leaves, rich in cool and fragrant smoking qualities. Only the heart-leaves are used in Old Golds.

Bennett Hurls Chester To Win Over Wellsville

His Mates Bunch Blows In First, Third to Win

Wolf Makes Mound Debut With Visitors, Going Four Frames; Flashes Double Plays Made by Both Clubs.

Although Jack Vanaman's Chester club collected but four solid smacks off the combined offerings of Wolfe and Easton, they clouted them when they needed them to score three runs and take a shutout victory over Wellsville last night at Smith field.

The game will probably be the final tilt of the season prior to the championship series.

Wolf, Sherwood moundsman, made his debut with the Wellsville club last night, giving the West Virginians four hits in four frames. The home clubbers bunched their blows, however, in the first and the third to score.

"Happy" Easton, Wellsville southpaw, replaced Wolf in the fifth and finished without permitting a hit.

Paul Bennett, who hurled for the Wellsville club in the first half of the season, turned back his erstwhile mates with four safeties, but kept them separated with the exception of the sixth when two singles were bunched. A double play at this point, however, killed scoring chances. Bennett whiffed nine opposing batsmen.

Vanaman's club sewed up the contest in the first inning when two Chester runners crossed the plate. After P. Marshall and McConnell had been thrown out on ground balls, Connors crashed a single to right, G. Cebula drew a walk and Springer singled to left to produce a pair of counters, a couple of stolen bases aiding the run-making.

Connors doubled to right in the third and scored Chester's third and last run on G. Cebula's single to left.

P. Marshall, Chester's youthful second sacker, thrilled the crowd when he speared Cal Wagner's hard drive in the seventh.

Wagner was pinch hitting for Bloor in that frame. Reese, first up, was safe on an infield error and stole second as G. Wagner fanned. C. Wagner then drove a hard one to the left of the second baseman. Young Marshall lunged to his side and just speared the ball with his gloved hand. He threw to second to double Reese who had started for third.

Edwards, Wellsville's first sacker, also made a pretty catch in the sixth for a double slaying. Kimble was on first by virtue of a walk when Cox popped one into the air along the line back of first. Edwards pulled it in over his shoulder, with his back to the diamond, and with a quick toss, doubled Kimble off first.

Connors' two-bag blow was the only extra base hit of the contest. Connors and G. Wagner collected two hits apiece.

City Loop Clubs End Campaign

Dropping of Turk Nash and K. T. K. Gives Newell 14 Wins.

As a result of the disbanding of the Turk Nash club and the withdrawal of the Kates, which followed action by the Motors, it is likely that the second half City League pennant will be conceded to the Homer Laughlin club which has won nine straight contests of the present half.

While Manager John Fowler of Turk Nash desired very much to fight it out with Laughlin for the pennant, circumstances over which he had no control made it impossible for him to assemble a full club and as a result the Motors were forced to drop out. As a result of their action, the Kates felt they had no chance.

Turk Nash had four games scheduled with Laughlin, one of which was billed for tonight and the second Friday. Dropping from the race, the Motors automatically forfeit four games to Laughlin which gives the West Virginians 15 wins. Add to this one game remaining between the Laughlin and K. T. K. clubs and Laughlin has 14 victories and no defeats, making virtually an impossibility for any other club to nose them out of first place.

Turk Nash and Laughlin were scheduled to clash the first week of the second half but, by action of managers at a meeting near the end of the half, the first week was moved back to the tail end of the schedule in order to permit playing of extra games to decide the first half title.

There will be no games tonight or Friday. Managers will probably decide on plans for the series between Wellsville and Laughlin in the next few days.

A Mystery Serial That Defies Solution

BY AGATHA CHRISTIE

CHAPTER 23.

"Now, Poirot," I remarked resignedly, "perhaps you will tell me what all this is about?"

"Well, mon ami, a good deal you can guess for yourself. Of course you realize that, now Mr. Inglethorp is out of it, the whole position is greatly changed. We are face to face with an entirely new problem. We know now that there is one person who did not buy the poison. We have cleared away the manufactured clues. Now for the real ones. I have ascertained that anyone in the household, with the exception of Mrs. Cavendish, who was playing tennis with you, could have personated Mr. Inglethorp on Monday evening. In the same way, we have his statement that he put the coffee down in the hall.

No one took much notice of that at the inquest—but now it has a very different significance. We must find out who did take that coffee to Mrs. Inglethorp eventually, or who passed through the hall whilst it was standing there.

"From your account, there are only two people whom we can positively say did not go near the coffee—Mrs. Cavendish, and Mademoiselle Cynthia."

"Yes, that is so." I felt an inexpressible tightening of the heart. Mary Cavendish could certainly not rest under suspicion.

"In clearing Alfred Inglethorp," continued Poirot, "I have been obliged to show my hand sooner than I intended. As long as I might be thought to be pursuing him, the criminal would be off his guard. Now, he will be doubly careful. Yes—doubly careful." He turned to me abruptly. "Tell me, Hastings, you yourself—have you no suspicions of anybody?"

I hesitated. To tell the truth, an idea, wild and extravagant in itself, had once or twice that morning flashed through my brain. I had rejected it as absurd, never theless it persisted.

"You couldn't call it a suspicion," I murmured. "It's so utterly foolish."

"Come now," urged Poirot encouragingly, "Do not fear. Speak your mind. You should always pay attention to your instincts."

"Well then," I blurted out, "it's absurd—but I suspect Miss Howard of not telling all she knows!"

"Miss Howard?"

"Yes—you'll laugh at me—"

"Not at all. Why should I?"

"I can't help feeling," I continued blunderingly, "that we've rather left her out of the possible suspects, simply on the strength of her having been away from the place. But, after all, she was only fifteen miles away. A car would do it in half an hour. Can we say positively that she was away from Styles on the night of the murder?"

"Yes, my friend," said Poirot unexpectedly, "we can. One of my first actions was to ring up the hospital where she was working."

"Well?"

"Well, I learnt that Miss Howard had been on afternoon duty on Tuesday, and that—a conveyance coming in unexpectedly—she had kindly offered to remain on night duty, which offer was gratefully accepted. That disposes of that."

"Oh!" I said, rather nonplussed. "Really," I continued, "it's her extraordinary vehemence against Inglethorp that started me off suspecting her. I can't help feeling she'd do anything against him. And I had an idea she might know something about the destroying of the will. She might have burnt the new one, mistaking it for the earlier one in his favour. She is so terribly bitter against him."

"You consider her vehemence unnatural?"

"Yes—she is so very violent. I wonder really whether she is quite sane on that point."

Poirot shook his head energetically.

"No, no, you are on a wrong track there. There is nothing weak-minded or degenerate about Miss Howard. She is an excellent specimen of well balanced English beef and brawn. She is sane itself."

"Yet her hatred of Inglethorp seems almost a mania. My idea was—a very ridiculous one, no doubt—that she had intended to poison him—and that, in some way, Mrs. Inglethorp got hold of it by mistake. But I don't at all see how it could have been done. The whole thing is absurd and ridiculous to the last degree."

"Still you are right in one thing. It is always wise to suspect everybody until you can prove logically, and to your own satisfaction, that they are innocent. Now, what reasons are there against Miss Howard's having deliberately poisoned Mrs. Inglethorp?"

"Why, she was devoted to her!" I exclaimed.

"That! That!" cried Poirot irritably. "You argue like a child. If Miss Howard were capable of poisoning the old lady, she would be quite equally capable of simulating devotion. No, we must look elsewhere. You are perfectly correct in your assumption that the vehemence against Alfred Inglethorp is too violent to be natural, but you are quite wrong in the deduction you draw from it. I have drawn my own deductions, which I believe to be correct, but I will not speak of them at present." He paused a minute then went on. "Now, to my way of thinking, there is one insuperable objection to Miss Howard's being the murderer."

"And that is?"

"That in no possible way could Mrs. Inglethorp's death benefit Miss Howard. Now there is no murder without a motive."

I reflected.

"Could not Mrs. Inglethorp have made a will in her favour?"

Poirot shook his head.

"But you yourself suggested that possibility to Mr. Wells?"

Poirot smiled.

"That was for a reason. I did not want to mention the name of the person who was actually in my mind. Miss Howard occupied very much the same position, so I used her name instead."

"Still, Mrs. Inglethorp might have done so. Why, that will, made on the afternoon of her death may—"

But Poirot's shake of the head was so energetic that I stopped.

"No, my friend. I have certain little ideas of my own about that will. But I can tell you this much—it was not in Miss Howard's favour."

I accepted his assurance, though I did not really see how he could be so positive about the matter.

"Well," I said, with a sigh, "we will acquit Miss Howard, then. It is partly your fault that I ever came to suspect her. It was what you said about her evidence at the inquest that set me off."

Poirot looked puzzled.

"What did I say about her evidence at the inquest?"

"Don't you remember? When I cited her and John Cavendish as being above suspicion?"

"Oh—ah—yes." He seemed a little confused, but recovered himself. "By the way, Hastings, there is something I want you to do for me."

"Certainly. What is it?"

"Next time you happen to be alone with Lawrence Cavendish, I want you to say this to him. 'I have a message for you, from Poirot. He says: 'Find the extra coffee-cup, and you can rest in peace.' Nothing more. Nothing less."

"Find the extra coffee-cup, and you can rest in peace." Is that right?" I asked, much mystified.

"Excellent."

"But what does it mean?"

"Ah, that I will leave you to find out. You have access to the facts. Just say that to him, and see what he says."

"Very well—but it's all extremely mysterious."

We were running into Tadmister now, and Poirot directed the car to the "Analytical Chemist."

Poirot hopped down briskly, and went inside. In a few minutes he was back again.

"There," he said. "That is all my business."

"What were you doing there?" I asked, in lively curiosity.

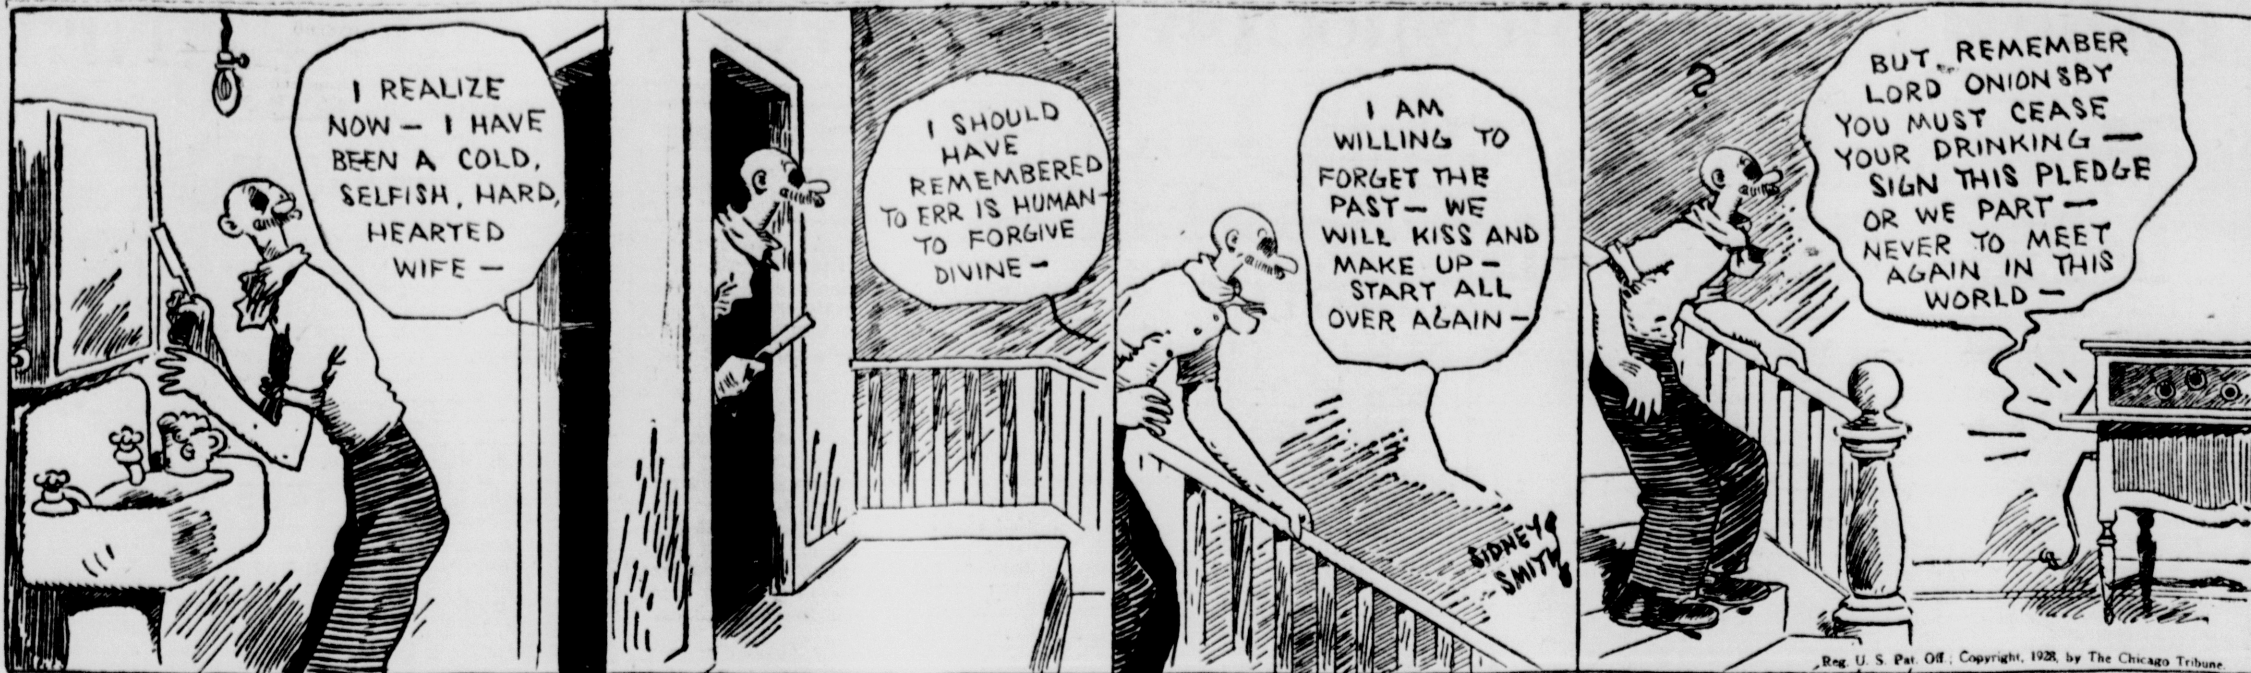

"I left something to be analyzed."

"Yes, but what?"

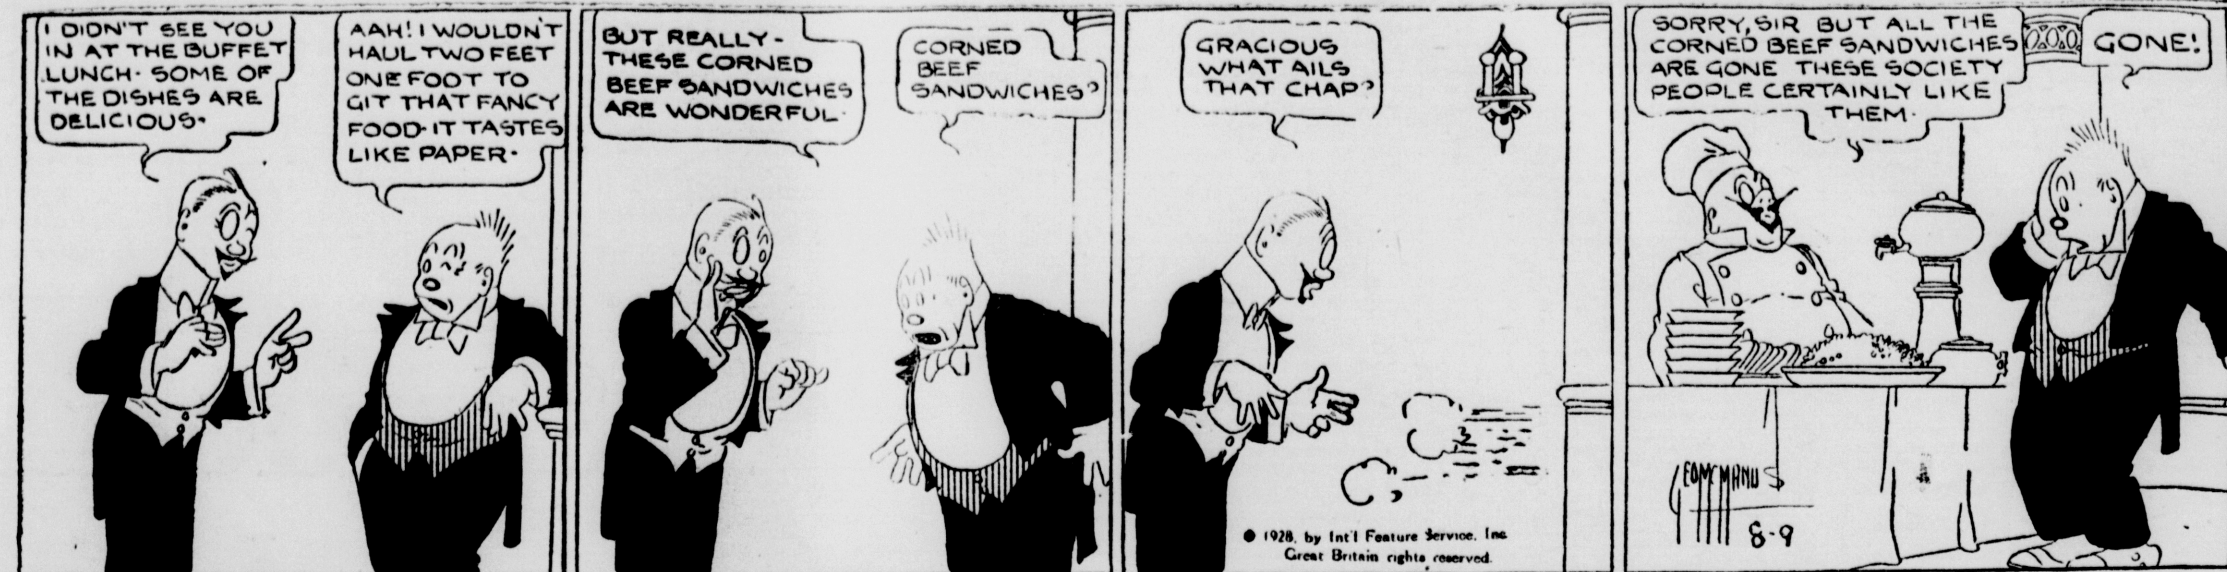

"A sample of cocoa I took from the saucepan in the bedroom."

REPORTS FROM STOCK MARKETS

NEW YORK, Aug. 9.—Industrial stocks on the big board received better support in early trading today, and moderate recoveries were scored in a number of the speculative leaders. Short covering of the motors and oils created a considerable buying demand for General Motors, Chrysler and other well known shares. Oils received the benefit of further advances in the market prices of crude and refined oil.

Westinghouse was a leader in the specialties, with a new three point advance to above 96. Buying of the stock was accompanied by reports of important forthcoming developments in the radio field. Radio corporation emerged from the inactive list and was driven upward about five points on a comparatively heavy turnover, to the accompaniment of reports of a large influx of new business for the corporation.

The money market puzzle was still unsolved. Call rates were posted at 7 per cent. And none too much was offered even at that rate.
